The Treason you Allowed.

It is also wishful thinking, that there were those who tried to convince us to go along with these cash for peace schemes to assist in the greatest sorts of frauds against the very people why has supported our stance on self determination and to assist with their wealth to build on a country divided but in practice one in a model that self rule could prevail.

Remember that these 37 top level members of the the ANC will be rewarded with those funds that was taken off the reserve bank and that of Lesotho and now named Namibia. It will always be on record that these moneys that was privately own but captured inside the reserve bank and controlled by the now lameness Broederbond conspirators was the hard earned Indian community in Lesotho and some in Namibia.

Where are these so called negotiators who hold all these powers to negotiated on behalf of the Boere-volk? Why were not one brave enough to openly criticise the new incoming establishments? Why did Barend Du Plessis and all the others in that inner circle negotiate in Lusaka and why did they have these meetings in Lesotho and other parts in Mozambique.

Let me be very frank and to all who have sold out with the blood of our people and to those who had nothing and came into the system as multi millionaires. They did not even own a car but those who had a battle going and who were on the streets, I can today guarantee that in years to come will still be fighting but not with a government but amongst themselves. Because they will find out of these billions that was divided and it will a war of corruption.

I fully understood the stance of Mr Omar as he was to take on the justice portfolio in time to come and it was true what was expected of him. It would be in his best interest to make sure that none of these criminal elements be prosecuted but I can tell you the readers now that Mr Boesak will become a scapegoat the them because of what he was aware of and the directions that was ordered by Malherbe and Rupert.

The day will come when the very sell-off will be exposed to all and regarding the bonds that was re distributed and was made to be securities for the people who cant even count to a thousand but will become millionaires with just a signature from the reserve bank president and those government traitors and of course Trust bank Volkskas Saambou Sanlam and the secret investment companies.

I will expose all the meetings and names as recorded.

SECRET - ENTIRE TEXT.

SUMMARY:

The full advance of all parties that has a viable interest in all current operations as discussed in the follow up meeting with regards to the actions of the "RB" and other financial institutions who will assist in the full distribution of the assets with the assistants of the minister and his special advisor's on these important matters as agreed to.

Please ensure that the bulk of the actual investments be directed to the appropriate banking institutions as agreed on. There should be no leaks and minimum activities announced and all must seem as normal, transfer as per orders from the incoming parties.

As a matter of great concern to the Lesotho deals and their full co-operation, it must be clear that Mr AR Surtie and Mr Bernard Glazer be treated as to the way we did with the Botswana deals.

Once these acts are completed and all the current assets and moneys are transferred for safekeeping by the appointed bank, we will then advise all parties of actions taken and it must be stressed that no paper trails will exist within the new order as agreed with the settlements of leaders.

The current stock piles of precious metals and others valuable stones will be sealed and the intelligence agents who will set up the companies abroad has been advised to conclude all deals in anticipating the stocks of all the assets. Full amount disclosers will only be discussed at a later stage with the current leadership and the incoming leadership that will be advised and chaired by Mr A Rupert.

With the banks being incorporated with the acceptance of Saambou bank, we will have the new heads of all these bank as advisor and they will play a very critical role in investments and other future potential deals. The following people will be added and all documentation must be disposed of as agreed. Mr Malherbe and Mr Strydom will be delivering all the aspects of the bond investments and the companies will be set up in conjunction with the Lusaka delegation.

The evils you are engaged in will be exposed for what they are:

South Africa has now been sold the very people all once called enemies:
The people who has put their trust and faith in all of you has now been betrayed and the dealings behind closed doors with the ANC and all the other so called freedom movements are just a smokescreen to enrich your bank friends and a good number of political people you have cooperated in all these new dealings that was agreed to in Lusaka.

I made my stance very clear to everybody and I promise all of you that this whole enrichment scheme will be completely unveiled and the very people who are now the beneficiaries of these so called group schemes will end up betraying each other and I can assure all of you that a financial war will be the next great war in this country and that your new found friends will turn on all of you.

I made it clear with Mr Gerhard De Kock that if he agrees with the agreements and I knew he would not have bowed to that kind of pressure, than he could also find himself in great danger of being part of the great reserve bank theft by the new found thieves. Little did we know that he would pass away only to be replaced the very Stals who would than assist in the pure daylight robbery of the very assets from the bank. It was a well thought out plan to have a person in the bank who would direct the assets to the ANC and to organise them a wealth that some had to work for but what was now a promise to them.

The secret deals and moneys given to the Sanlam group and its owners was always going to the very source of transfer designed to conceal all the investments for the new dispensation and I can assure you that these allocations have already been decided on. The gold reserves and other bonds that were allocated to all at the banks and of course to the Swiss banks for safe keeping is just a front and deals that was concluded in Lusaka and the most important one in Lesotho where I believe our country was sold.

It must be noted that when Bankorp was in trouble, it was always Sanlam who came to its rescue and now I understand how Sanlam was able to assist, because of its financial life it had at the reserve bank.

I had a strait meeting with Piet Liebenberg who was assured that he will never be implicated in the current situations at the banks and that he was to operate and take direct instruction from Anton. Than Sanlam approached the reserve bank for assistants for Bankorp but that was just to make sure they get the current finance they need to finance there sale of the country to the ANC. Mr Barends approved this deal but he knew this was only a smokescreen to cover the actual amounts that was allocated to Sanlam. These deals has all been concluded and was only printed on certain dates to conceal its actual intentions and the real value of it.

Having all these facts based on direct interactions with all of you and knowing how you are all implicated in a system to steal the very reserves to keep our country going and selling your very souls, I have no choice but to distance myself from all these criminal and evil actions. There will be consequences for you after you give up this country as I believe that all of you will be dealing in bad faith. There is no truth in these facts of negotiations and I think its a system designed to give the bankers and others a chance to take as much as possible from our society and the reserve bank.

The Broederbond sold out to the very things it has created and also when Anton tried to distance himself from it, he was in complete control and was at the forefront of the negotiations and all these transactions that will take place. Also it must be noted that the homelands and all the other countries around who has their moneys invested in the banks and also those that are holed up in the reserve bank, will lose it to your new found partners as a token of peace and enrichment to them.
